But anything Adams has to reveal on the ground that his attorney did not condemn the Finance Commission properly authorized to demand this testimony, Judge Fuchs refused to tell the members anything, except to the Supreme Court in the Adams case, was then taken by Chairman Dowling.

So difficulty was expected in getting a ruling forcing the Finance Commission to testify.

Judge Fuchs maintained that if his examination was not duly empowered to make him testify, and he declined to court action based on what he might say, if the Supreme Court compels him to testify, his statements are privileged like any other testimony.

Judge Fuchs received from an agent of attorney in time to go to the Finance Commission office on Belmont st., for the private conference, which lasted before noon and lasted nearly two hours.

...and two or three children, particularly if there is illness in the family, he has all he can do to make both ends meet.

"If a man has a small business he can charge off certain things, such as insurance, but the man with small salary does it won't be a hardship to the man having an income of \$3,000 or \$4,000 to have him pay \$20 or \$30 more a year from the men with small income. To take \$10 or \$20 more a year from the men with small income is wrong. That man means a great deal to him, regardless of what they may think to the contrary."

Atty. General W. Crocker said: "It seems to be in inevitable commission to increase the income tax of the small salaried class in the State and I am opposed to it. If when the people it will affect are

be ripe for a revolution against un-American conditions of the oppressive and offensive kind.

The opposition to prohibition is not merely by people who want to get drunk.

Prohibition is opposed by such temperance influences as the Episcopal church and the Hearst newspapers—I modestly put the Episcopal church first—the reason for this opposition is that prohibition is a failure as a temperance measure.

The more we try to enforce it, the greater failure it becomes as a temperance measure, because the only thing we can absolutely prevent traffic in is bulky drinkables like wines and beers; and these contain the least amount of alcohol, and are consequently the least harmful.

It never has been possible and never will be possible to prevent traffic in compact and concentrated alcoholic drinks; and even if the traffic could be interfered with, every man could make these in his own cellar if he wanted to.

Furthermore, we must not make the mistake of thinking that the country is divided into two classes—drys, who want to make the country bone-dry; and wets, who want to make the country souse-wet.

There is an enormous middle class, which probably is a majority class, who believe in temperance and believe in personal liberty, and realize that temperance can be secured without prohibition, and never can be secured with prohibition.

These people do not want to be ruled by the liquor interests, nor on the other hand by the bone-dry fanatics. Sooner or later they are going to assert themselves, and personally I think it will be sooner.

Prohibition has been repudiated by every country which has ever tried it, primarily because it did not accomplish the thing it was supposed to accomplish, and secondarily because it became such an unpopular measure that no government could stand up under it, not even firmly entrenched monarchial governments.

Therefore, I think that in offering a prize on how best to enforce prohibition, Mr. Durant is really offering a prize on how best to rule the Republican party out of power.

And I think Mr. Finchot has actually won the prize, because his plan being the most un-American and the most obnoxious will make the Republican party more unpopular than any other plan which has been proposed.

I consider the Eighteenth Amendment not only the most flagrant violation of the basic American principle of personal liberty that has ever been imposed on the American public, but the most complete failure as a temperance measure that has ever been conceived.

Therefore, I would like to offer, and hereby do offer, a prize of twenty-five thousand dollars for the best plan to repeal the Eighteenth Amendment and substitute in place of prohibition a more liberal and more American measure, which will secure for the public more genuine temperance, with less offensive interference with the fundamental rights and personal liberties of the citizen.

FILM STAR IN COURT

ANSWERS CHARGES TODAY
Alma Rubins, Hollywood movie actress, is accused of disturbing the peace, by staging "one continual party." By Mrs. M. L. Uhl, who lives near Miss Rubins. Several of the movie cels are called to testify.

STATE TO HOME ANIMATES

Police today were still investigating the Cooper homicide in Dedham as Mrs. Helen L. Cooper, charged with homicide in connection with her home for the aged, was arraigned in Dedham district court and released in jail at 10 o'clock.

Beyond admitting they were still probing conditions, police would make no disclosure, and the court session, which was attended by a large crowd of townspeople and several dozen members of the press, was adjourned at 10 o'clock.

"I am not guilty," said Mrs. Cooper in a firm voice when asked to plead guilty or not guilty. She then turned to a seat beside her daughter who embraced her.

Mrs. Cooper is charged with the homicide of "more than 100" from one of 25 members of her family. As the request of the authorities, Judge Clifford E. Babson, continued the case to January 10. Friends of the defendant opposed the bail.

"A few members of the household are accused of a second homicide by the Massachusetts Department of Public Welfare."

At the hearing, Judge Babson, after a long session, ordered several hours interviewing the worried friends, ascertaining their professions as to the matter of future absconding and their fears.

At the hearing, it was announced that all the members, many of whom have their life insurance in this firm when Mrs. Cooper filed a voluntary petition in bankruptcy, will be established within 10 days among the several applicants, which have been volunteered.

Tax Payers' Mail Protests Now!

ON to Beacon Hill—by mail! Have YOU sent in yet your protest against the new hand-thrust into the smallest man's pocketbook?

It is a surprise dipping against those that can least afford heavier taxes and in favor of those that can best afford a higher assessment. Governor Fuller himself has seized the cudgel against what he terms a rank injustice against the working man.

Send in YOUR letter of protest against the newest grab. They will be forwarded from this newspaper office to the Legislature. And YOUR letter may be the one that tips the scales just enough to confound the men responsible for the new imposition against the man—and not whose back bears always the heaviest burden, in proportion.

Your letter should be addressed to the Tax Editor, Boston Evening American, 5 Whitnosp. Boston. If you spare the ink you incur the incubus.

Apparently caused the suicide attempt, according to the authorities.

Several friends of the student and Capt. John Anderson of the Back Bay police, after an investigation, declared that the young man turned his gun upon himself as he lay in his bed this morning. He used a .22 caliber automatic pistol. The shot penetrated his right temple. He was alive, however, to get to his feet and walk 25 feet to the door of his bedroom. There he collapsed.

Christensen came to Boston from Copenhagen last fall to complete a course in electrical engineering. His friends and several of his acquaintances had the police that he had a lot of time and money and a lot of fun. His room was lined with books. Most books and papers heaped the table. He had a library, and he said that he suffered from headaches.

A half-cent letter to a man friend said, "Christensen was not feeling well."

Under the real estate column of the "Daily Mail," there is a list of the names of the students who are available for available business.

Cried Out Loud But Was Bit Too Loud About It

For crying out loud—just a little too loud—Harry Carr, South End junk man, was fined \$10 in Municipal court today.

The charge was "crying, his wares in a manner such as to disturb the public."

Patrolman Martin Glynn told Chief Justice Holter that Carr had the "loudest voice of any man in Boston." The officer said he could hear Carr "a mile away."

Mrs. Charles Morris of Worcester testified that Carr could be followed all over her neighborhood by his "raucous" yelling.

SO SAYS NOTED HUB READER OF STARS

By EDNA HARVEY HALL

Ruby McLaughlin has been with the sign of harmony and unity, Libra, on the Ascendant; the symbol for Libra is the balance or scales, and it represents justice.

Poise, tact, equanimity, competence. These are the qualities most evident in the normal manner of self-expression of those born with this sign rising. They have great love of order, peace, justice tempered with mercy, a fine sense of right and wrong, yet a kindly tolerance toward the faults of others; and are courteous, gracious and gentle.

OF SOCIABLE NATURE

They always try to avoid unpleasantness, and are clever in evading arduous tasks or situations, except in artistically creative work.

At times they are indolent, but when their indolence is aroused they accomplish undertakings with thoroughness and dispatch.

They cannot bear discord or friction, and they are sociable, affectionate and romantic, and like to awaken friendly feelings in others.

Having a great deal of determination and objective foresight, despite their easygoing manner, they are able to get their way, through calm, goodhumored, judicious self-assertion and self-assertion.

All Libra natives are idealistic and usually have latent for music or painting. The child is especially gifted and will develop a keen sense of the dramatic. The ruling planet, Venus, in the sign Aquarius, signifies that the child will be ambitious for a public career. A friendly, cheerful spirit assures popularity.

Many intimate, beneficial friendships will be formed among those in influential positions and of exalted social standing.

FOND OF LUXURIES

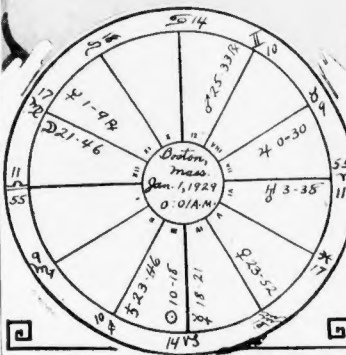

Venus applying to the opposition of Neptune indicates some self-indulgence. The child is likely to be very fond of candy, luxuries and to shed in life, and care should be taken that his health is not impaired by the gratification of tastes, and "soft living."

Venus applying to good aspects with Mars and Jupiter denotes that it will be very fortunate in acquiring money and possessions, will be the recipient of gifts, favors and other forms of unearned increment, and that his buoyant optimism, quickness of wit, will aid in having the way to success.

Best of all, Venus in close, harmonious aspect with the steady Saturn shows that the child will be a caring, affectionate and loyal in affection, persevering and steadfast in aspiration.

GOOD TEMPERED

The afflictions of Saturn will come through the opposition of Saturn and Mars, both squared by the Moon, indicating that emotional disturbances and mental conflict may have a serious effect upon health. Harmony in environment is essential to well-being. Fits of temper will be a clear indication of suffering from mental or emotional conflict, lack of comprehension of needs on the part of others, or their failure to make things clear is causing an unbearable nervous and emotional tension, and at such times the child is likely to give way to very destructive outbursts, even though, normally, an agreeable, good-tempered child.

32,000 RUSH 110 CALLED FOR TO FORD PLANT TRIAL HERE IN FOR WORK RUM CASES

Detroit, Jan. 2 (AP)—Milling about the employment office of the Ford Motor Company at Fordson, a crowd estimated by officials of the company at 32,000 men today responded to the announcement of the company that 26,000 additional men will be employed.

The crowd was unwieldy and the employment office, which was to have opened at 8 a. m., remained closed until guards could form the men into a semblance of a line.

Many of those outside the small building had stood all night in the snow. By 4 a. m. the number was estimated at 5000 and by 8 a. m. Ford officials said there were 32,000 on hand.

Employment officials of the company have announced that from 500 to 600 men will be added to the plant's roster daily until the full complement of 32,000 has been filled. More than that cannot be hired daily, they said, because of details of employment.

The initial announcement of the company said the 26,000 men will have been hired by March 1 to enable the opening of the plant six days a week while maintaining the Ford schedule of a five-day week for employees.

'SICKBED BRIDE' RISKS RELAPSE FOR NUPTIAL

Allen G. Osborne, headmaster of 24 hours, and incidentally, nephew of the President Woodrow Wilson, was today making the best of a wedding nervous breakdown.

The bride, the former Miss Alice G. Hall of Portland, Me., who was taken under a doctor's care in her room at her parents' home, was cooperating from the nervous strain of taking part in an elaborate church wedding attended by friends and relatives, and a crowd of 100.

The young husband's first morning in Mrs. Osborne this morning was when, by special permission, he was allowed to take her breakfast in her bed.

TICKETS TO BERMUDA

The own mother, Mrs. Louis A. Osborne of Scarborough, Pa., was present as were the mother and father of the bride, Mr. and Mrs. H. Dwight Hall.

In the bridegroom's pocket were tickets for a honeymoon suite on a ship leaving for Bermuda, Saturday, but a wire was on the way to the shipping office cancelling the reservation.

Although Mrs. Osborne is not dangerously ill, her recovery from an attack of the grip was retarded by her strenuous effort in going through with the marriage ceremony and subsequent reception.

Instead of being "alone at last," as she had hoped, she was surrounded by the warmth and safety of Bermuda, the honeymooners to spend the next few days under the affectionate but watchful eyes of their in-laws.

The Bermuda trip is not abandoned, but it is indefinitely postponed.

Probably not until tomorrow will the bride be able to go down to the altar and check over her brilliant array of wedding presents.

Osborne met newspaper reporters this today with an air of resignation.

50 AT WEDDING

He said that Mrs. Osborne will make their home at Bloomfield, N. H., and before they have a "real honeymoon."

Osborne's uncle, Dr. Thomas G. Hays, the Connecticut-born physician, the Osborne family is well known in diplomatic circles here and abroad.

The bride is a graduate of Rogers Hall, Miss Woodcock's school, and a member of the Phi Kappa Phi.

The wedding took place at St. John's Episcopal Church, Winter Street, where more than 250 guests were present. The Rev. Ralph M. Harper, rector, officiated.

FORAN TO PUSH KELLOGG PACT TO EARLY VOTE
Washington, Jan. 2 (AP)—Proponents of the Kellogg pact treaty are pushing for its early ratification by the Senate tomorrow to push the pact to a vote ahead of the coming meeting of the naval construction committee, which would speedily ratify the treaty to the point of ahead of the cruise mission.

No confident were treaty advocates that the agreement is being sought by the Senate. Instead of the foreign relations committee, which would speedily ratify the treaty to the point of ahead of the cruise mission.

Whether Chairman Hale of the naval committee would ratify the agreement whereby his naval construction bill would be passed after the treaty, appeared to be in the air. The treaty advocates have the vote to go into executive session for consideration of the pact.

Senator Reid, Democrat, Missouri, will fight the treaty and will gain some support from Senator McCumber, Republican, New Hampshire, who opposes adoption of an Interpretation in ratifying America's reservation in the Kellogg pact. However, treaty backers believe they can force an early vote on the pact by the Senate tomorrow at 2 o'clock. At that time, however, treaty advocates may move to go into executive session for consideration of the pact.

FORAN TO PUSH KELLOGG PACT TO EARLY VOTE
Washington, Jan. 2 (AP)—Proponents of the Kellogg pact treaty are pushing for its early ratification by the Senate tomorrow to push the pact to a vote ahead of the coming meeting of the naval construction committee, which would speedily ratify the treaty to the point of ahead of the cruise mission.

HEALTH OFFICIALS GIVE PRACTICAL ADVICE TO HELP AVOID INFLUENZA

The recommendations of health officials deserve special consideration at this time. Get plenty of sleep. Be careful that you eat only wholesome food. Avoid crowds where possible. Stay at home and take good care of a cold however slight. Proper precautionary measures now should keep you free from the "flu." It is much easier to avoid than to cure.

With influenza sweeping across the country, many persons have found Vapoex an excellent first aid in keeping free from colds and all kinds. The simplicity of use of Vapoex makes it especially suitable for those who cannot avoid crowds. Put a drop on a folded handkerchief every morning. Breathe the pleasing vapor frequently during the day. Use it often while riding in street cars, buses, etc. The strength of the vapor keeps you free from colds and stops a cold at the start. Get Vapoex from your druggist in the little square bottle and the package with the green triangle.

Flu-Grip

RUS your chest
with Vicks
your little cold gets BIG.
Vicks acts two ways at once to check the cold and prevent complications:
It is vaporized by the heat of the body and inhaled for hours direct to the inflamed air-passages;
It acts through the skin like an old-fashioned poultice "drawing out" the tightness and pain.

A new method of treating colds and chronic coughs. Throatine is a new and effective remedy for colds, coughs, and throat irritation. It is a powerful antiseptic and soothes the inflamed throat. It is also a powerful expectorant and helps to loosen the phlegm. It is a natural remedy and is safe for the whole family. Try it today and see the difference it makes.

Extreme dieting is also dangerous to health

Reducing may ruin good looks
Besides, skinniness is unbecoming. "Essentially," says an eminent doctor, "the curve is fundamental to beauty." The really beautiful consists of that which is beautiful and efficient. He goes on to warn us that "The craze for thinness is an attempt to modify the process of nature."

Women to be beautiful should be natural and healthy, and it is dangerous not only to good looks but to health for women, girls or men to try to standardize their weights. Eat plenty of varied nourishing foods. Everyone needs a certain amount of fat in the tissues of the body. Don't forget the value of sugar in making other foods tasteful and enjoyable. There is no substitute for sweetness as a food and flavor. In reducing, decrease the quantity of all foods, but enjoy variety. Health is necessary to beauty. The Sugar Institute.

Wilkins Party Gives 1929 Noisy Greeting

By CAPT. SIR HUBERT WILKINS
Commander Hearst-Wilkins Antarctic Expedition

DECEPTION ISLAND (Antarctic), Jan. 2.—(Via Whaler Hektorika and KUP, San Francisco Examiner wires station.)—Nowhere in the universe have bells rung the old year out and the new year in more cheerily than at this cosmopolitan outpost of industry.

At midnight our feast was interrupted by the jangling of bells, grenade detonations, steam whistles, the booming of four-inch harpooning guns and the rattle of rifles and revolvers. We rose, clinked glasses, and drank to our friends and each other's success and happiness. Then we sang in turn our national anthems of our countries.

PLAY FOOTBALL

Eliason, Crossan and Porter willingly accepted invitations to direct and shoot the heavy swivelled whaling guns, and the boom of these small cannon stirred the millions of birds, who crowded together in the air, their whirring wings added a note of weirdness to the din. All through the night scenes of revelry continued, scarcely subdued before a late break fast that proceeded a short period of rest. This afternoon sports were held and even more, where the after-dinner sunshine is broken by long shadows from the mountains, a closely contested football game is in progress.

Yet for some of us today holds a tinge of sadness. Six years ago "The Boss," as Sir Ernest Shackleton was invariably called by associates, left us while the Quest was at anchor at South Georgia. Not far from here at the very gate of the Antarctic, where he had suffered heroically to sneer and rescue his endurance crew, he gave up his life.

DEPENDS ON WEATHER

Like many others, I am proud to have served under him and trust that some day I may discover a worthy feature which I still can further commemorate him, his name, and memory.

None suffered or labored more valiantly against greater odds in this vast white South than did Shackleton and Scott, and we who carry on their work in comparative ease and comfort realize that we cannot share the pedestal of fame with them, but there is still much to be done in the South.

Whether we can continue with the work immediately depends on the whims of the weather.

Sheriff Capen 51 Years in Service

Robert H. Capen, sheriff of Norfolk County, observed the 51st anniversary of his service in the county on Sheriff and deputy sheriff. Special Sheriff Richard L. Shedd of "Brookline" today will assume the duties of county jailer and keeper of the Doherty House of Correction, and will continue the quarters formerly used by Sheriff Capen. The announcement was made because of the increased work of the sheriff's office.

TEX RICKARD IN RALLY AFTER OPERATION

Miami Beach, Fla., Jan. 2 (HNS)—George L. Fred Rickard, former sports promoter, lay today in a hospital in Miami Beach, Fla., recovering from an operation to remove a malignant tumor in his appendix and a great relief.

He had been unable to attend the premiere of his latest sports venture, Miami Beach Kennel Club, magnificent new racing track at the south end of Miami Beach.

Fifteen minutes before the first race of the afternoon, Rickard was rushed to hospital for an emergency operation for acute appendicitis.

Dr. E. H. Adkins, leading surgeon of the winter colony here, removed Rickard's appendix and the promoter was feeling easily about the time the battle raged for the third race. Rickard spent a comfortable night and his condition was reported "good" at the hospital today.

At Rickard's invitation, the elite of the Miami Beach winter colony and their New Year's party for the night were in his quarters in the clubhouse. Not until they arrived did they learn that Rickard himself was on the operating table.

He had been stricken New Year's Eve by what seemed to be acute appendicitis.

ICE— 115 Years Ago

On June 15, 1814, the following advertisement appeared in the Alexandria (Va.) Gazette:

"Those who wish to become subscribers for ice for the season are informed that it is now ready to be delivered to them daily. Terms, six pounds per day, as long as the ice may last, for six dollars. The season ending on the 10th day of September."

Today there is no "season" for ice and no danger of a shortage.

Spring Weather by the Box, Let's Have Some

New York, Jan. 2 (AP)—A method of simulating spring air in a modern version of the old family ice box was described today before the association of official seed analysts.

It is used for testing the germination of seeds at the Virginia department of agriculture and horticulture. In an electrically operated, controlled refrigerator, controlled temperatures are obtained over food seeds placed in special soil.

Even the breezes of spring, so far as they are useful to the fruits of farmers, are preserved through the action of cold water running through the apparatus, and providing the air purification that takes place in open fields.

Spring's sunshine is simulated in its essential effects through an electric heater.

Build Plane to Break 318-Mile-an-Hour Williams Record

Washington, Jan. 2 (AP)—Lieut. Alfred J. Williams, who speed piloted, now on duty at the bureau of aeronautics, is collaborating with the Stevens Flying Corporation of New York in construction of a new plane that it is hoped will exceed Williams' own unofficial record of 318 miles an hour.

It was said at the Navy Department Williams' interest in the plane is private and outside his official duties.

Navy officials refused comment regarding the possibility of Williams' participation in this year's Schneider cup race.

Tropic Skies Prove Irresistible Lure to Carefree Smart Set

BY EVERY TRAIN AND EVERY BOAT THEY GO STEAMING southward, the sunshine seekers. And principally the journey's end is the queen spot of America's Riviera, Palm Beach, lying so brightly alluring on its glittering sands. The great and the near great, the important and the insignificant, the autocratic, owners of Golconda fortunes and arbiters supreme of the social order take the southern trail to sun-kissed days and starry nights and the increasing exchange of social amenities that make Palm Beach like no other spot on the fashionable globe.

IN THAT EXQUISITE BIT OF FAIRYLAND THAT IS THE EVERGLADES CLUB, Palm Beach's most exclusive set halted 1923. What Nature in her lavishness supplied of velvet turf and anemone sky,

tropic verdure and rainbow color the hand of man has magically supplemented to make the Everglades a joy supreme. Dinner there went its stately way in the Spanish hall and dancers whirled about the orange garden. Mr. and Mrs. Lewis Quinn Jones of New York and Newport welcomed the New Year thus in Palm Beach's social holy of holies.

TO MISS JONES THE EVERGLADES CLUB must ever be an overwhelming satisfaction as well as a vision of tropical loveliness. Some of its most magical touches owe their being to her vision and quiet influence. The place looked lovelier than ever as Palm Beach's super social season got merrily under way during 1923's closing hours and 1924's opening ones. Miss Jones wears a costume of softest crepe, a lustrous fabric that brought out beautifully every fibre gleam in every priceless blue-white diamond she wore so regally.

WHEN MULTI-MILLIONAIRES DON'T most noted and consistent and persistent bachelor, Harold Sterling Vanderbilt, commences his trek southward from New York's January drizzle to Florida's palm, your social chronicle for which a pen and expects all sorts of social protestations. The best part excellent in this dalliance along enjoyment's path, and when his private car gets under way it always is sure to be filled with gay and carefree souls who understand full well the Vanderbiltian homecoming.

THE NEW YEAR'S ADVENT IN Palm Beach was the brightest because of the presence of Mr. Vanderbilt and his carload of chosen followers and also until the robust come North again was at its festive height. The holiday, Dr. and Mrs. Edmund Lathrop have proposed their magnificent villa with a choice company for bridge and music and supper, to celebrate fittingly the completion of a dining hall in the Spanish motif.

Houseboating Has Special Charm

STAGE AND CONCERT CELEBRITIES have a way while in Boston of being so intensely concerned with professional appearances that they are quite out of the question. Alfred Lunt and Miss Fontaine of special Theater chivalry luminosity found no time for even the smartest houseboats who like to invite their friends to meet visiting lions. And Miss Mrs. Hesse, who arrives shortly to grace local concert stages, secures only the most informal of entertainers. D.R. AND MISS. HARRY GOODALL of Raleigh, N.C., went northward in the popular way of holiday makers and so sought winter at Quebec with the Chateau Frontenac as headquarters. They are just now about to arrive home again. Mrs. Goodall very recently has come into grandparent honors, through the small daughter arriving to be queen of the nursery in the Richard Leland Thompson household. The former Miss Pullie Adams Force is the grand mamma, daughter to Mrs. Goodall.

WHAT HAS HAPPENED SO FAR
POLLY CARTER, a sophisticated college girl, has no illusions about life. Life was "warmed-over stuff," she boasted. Nothing shocked her, though she delighted to shock others. With her commencement degree she returns home expecting to find the same dull routine of small-town life, the same old-fashioned parents. Instead she is startled to find her mother carrying on an "affair" with her father's law partner.

Now Go on With the Story

CHAPTER 2

WHEN Bob came, he was startled to find Polly not ready. She told him a lie about a spitting headache, but it failed to click. She loved to enrage young men, but her mother puzzled her when she pleaded:

"Bob's paid for the tickets, Polly. It's too late to turn them back. You oughtn't to miss the play. Run along."

Polly was hurt, but she obeyed, went to her room, dressed hastily again, wrapped her gay Spanish shawl about her, and came down the steps pretending to be gay, walking happily and snapping imaginary castanets. She went out to Bob's car, but just as she started it, she checked him.

"Wait a minute and let me off."

"What's the matter, Polly?"

"I don't want to go to the play," she said, her powdering hands and her eyes.

"Why not? You've got to go. You don't want to miss the play?"

You Was a Good Ol' Tree But You've Done Come Down

WHAT A DIFFERENCE JUST A WEEK SOMETIMES MAKES!

Here is an artist's conception of the sad fate that yearly awaits all good Christmas trees. One view shows the tree all dressed up in glittering linens—a glorious, jovious sight to little Junior. That is the hour when dreams come true.

The other view shows the poor old tree after it has been stripped of its glory and consigned to the ash can. Back to the dump it now must go, but little Junior will remember it as a good old tree until Santa Claus comes again.

THREE-MINUTE TRIPS

By **THOMAS WANNING**
 It is possible to travel in three minutes from any part of the world to any other part of the world. This is true if you are willing to pay the price. The price is not high, but it is not low either. It is just what you need to get to the other side of the world in three minutes. The price is not high, but it is not low either. It is just what you need to get to the other side of the world in three minutes.
